# TOM CORBETT

## PROFESSIONAL EXPERIENCE

### Contract Developer – Remote

Collaborated with design & dev agencies in Canada and EU, delivering projects to specification in Lead and Senior roles. Utilised and defined architectural decisions in Vue, Nuxt, React & Next as per project requirements - including marketing sites, interactive 3D experiences and portfolios. Delegated tasks via project management tools and reviewed code of other developers while working with larger teams.

**NOV 21-PRESENT**

### InVintory Wines – Toronto

Led development of 3 interdependent web clients built with Vue. Joined the company pre-launch and helped grow to 50k+ users. Defined all architectural decisions during this expansion and spearheaded improvements to code base to match pace with aggressive feature release schedule. Mentored junior developers to intermediate level, managing setting tasks to match their growing skill and still meeting the product roadmap.

**OCT 19-JUN 22**

### Array of Stars – Toronto

Senior UI Developer contracted for a broad portfolio of projects. Helped refine the core stack of technologies powering ambitious projects for Sony TV shows, VR experiences & more, in both Vue and React.

**DEC 16-SEP 19**

### OneMethod – Toronto

Front-end UI Developer for dynamic advertising agency, leading interaction design decisions and defining tech stacks on major projects for Nestlé, Kijiji, and the CFL. Worked to establish culture of communication between design & development teams.

**JUL 15-AUG 16**

### Rook Design Ltd. – East London

Founder, Designer & Developer of digital design agency Rook, specialising in engaging identity design and mobile-first web development with bold, playful visuals. Managed client communication alongside project deliverables.

**OCT 14-JUN 21**

UI developer trained as an architect. Originally from Kent, England. Seeking to share enthusiasm for bold, brilliant digital design with a standout team.

## TECHNOLOGIES

### JavaScript

- ES6+
- Vue & Nuxt
- React & Next
- state management
- React Native

### 3D / VR

- Three.js
- React Three Fiber
- Cinema4D
- Blender

### CSS

- SCSS / SASS
- Stylus
- Atomic principles

### Modern dev

- Vite, Rollup, Webpack
- NPM, Git
- Responsive design
- System architecture

## EDUCATION

### The University of Nottingham

#### *RIBA Part I*

BArch (Hons) Architecture

**SEP 08-JUL 11**

### The Judd School

#### *A-Levels*

Mathematics, Further Mathematics,  
Physics, Design & Technology

**SEP 01-JUL 08**
